

CERTCON 2022- "Future Focus of CERT"

November 18-20, 2022

George Washington Middle School, Alexandria, VA

- ◆ The National Capitol Region CERT Consortium (NCR Community Emergency Response Team) is sponsoring the eleventh annual CERT conference in Alexandria, Virginia on Friday, November 18 to Sunday, November 20, 2022. This event will take place in-person.
- ◆ The conference is to provide advanced education and hands-on disaster preparedness training to CERT teams in the mid-Atlantic region and to provide an understanding of CERT capabilities to emergency management personnel.
- ◆ CERTCON is open to everyone interested in emergency preparedness and response, including volunteers for Medical Reserve Corps, Red Cross, Team Rubicon, among others.
- ◆ In 2022, we are pleased that CERTCON will be hosted by the National Capitol Region CERT Consortium (NCR CERT) for the first time. The NCR CERT Consortium is an organization that grew directly from the bonds of professional friendships formed over the years at CERTCON. We look forward to a wonderful conference, and the chance to meet friends old and new.

Some of the Featured Session Topics Include:

- | | | |
